7 October 1965

NOTE FOR: Dr. Wheelon

SUBJECT : Dissemination of 303 Post-Mission TACKLE
Reports to Commanding Officers of

25X1A

25X1A

1. I have received a request from OSA, based on recent conversations with the Commanding Officers of to seek approval for the release of one preliminary 303 Post-Mission Report on TACKLE operations on an EYES ONLY basis to the Commanding Officer and Intelligence Officer of each installation. In my view, and in the view of OSA, these reports would provide a much needed stimulus. At the present time, the results of TACKLE missions are fed back to the operational elements only on a piecemeal basis.

25X1A

25X1A

2. I recommend that you approve the request.
